🔗 Personal Portfolio 🏠 Kasun09

Profile

Full-Stack Software Engineering undergraduate with hands-on industry experience in building scalable web applications, API integrations, and modern user interfaces. Proficient in frontend technologies (React, JavaScript, Tailwind CSS) and backend development (.NET Core / C#, SQL Server, REST APIs). Proven track record of delivering enterprise-grade solutions, including third-party API integrations (Xero) and client portals. Passionate about clean architecture, performance optimization, and building user-centric digital products.

Professional Experience

Software Engineering Intern, Team Collaboro Pvt Ltd

01/2026 – 07/2026
Colombo, SriLanka

Worked as a Software Engineering Intern contributing to the development of enterprise web applications, gaining hands-on experience in full-stack development, third-party API integrations, and UI implementation.

- Developed a Full-Stack Xero Integration platform using .NET Core, C#, and React.
- Designed and Implemented a Responsive Client Portal Website with modern UI and interactive components.
- Collaborated in full-stack development, database architecture, third-party integration, and UI improvements.

Education

NATIONAL INSTITUTE OF BUSINESS MANAGEMENT (2024-PRESENT), Faculty of Computing and Engineering

- B.Sc.(Hons) in Computing

ESOFT METRO CAMPUS KANDY (2023-2024)

- Diploma in Information Technology (DiTEC)

St, SYLVESTER'S COLLEGE KANDY (2013-2022)

- G.C.E Advance Level - Physical Science Stream (2022)
- G.C.E Ordinary Level (2018)

Hard Skills

Programming Languages

- JS
- Java
- Python
- C#
- C
- Kotlin

Front-End Frameworks

- React
- HTML
- Tailwind
- CSS
- Quasar

Backend / APIs / Databases

- .NET Core
- C#
- REST APIs
- MySQL
- Firebase
- Supabase
- SQL Server

Others

- git
- Postman
- Figma
- Photoshop

Projects

Fintelli – Enterprise Accounting & Integration Platform (.NET 8, React, SQL Server)

- Developed a Full-Stack Xero Integration platform using .NET 8 Core, C#, and React to sync financial data and manage background processes.
- Designed and implemented a responsive Client Portal Website with interactive components and dynamic multi-tenant dashboards.
- Built secure backend REST APIs, optimized SQL Server database schemas, and integrated OAuth 2.0 authentication for third-party service sync.
- Collaborated in full-stack feature development, database performance tuning, and cross-platform UI improvements.

Fish Tank Monitoring System – Mobile App (Kotlin/Jetpack Compose Project)

- Developed an IoT-based mobile application to monitor aquarium/fish farm conditions in real-time.
- Integrated ESP32 sensors for temperature, water level, and pH measurements, syncing data with Firebase.
- Implemented a dashboard to display live sensor readings and historical data for easy tracking.
- Designed a clean and interactive user interface using Jetpack Compose for seamless user experience.

SmartRoute+ – AI-Based Route Optimization System (Machine Learning Project)

- Implemented a system for **optimal route selection** using **Dijkstra's algorithm and shortest path algorithms**.
- Visualized routes with **Matplotlib and NetworkX** in Python.

Shanii Residence – Hotel Management Website (PHP/XAMPP Project)

- Developed a dynamic web application for **Shanii Residence** to manage room bookings and food orders.
- Implemented a **customer portal** to view available rooms, make bookings, and order meals online.
- Built an **admin portal** to manage bookings, track payments, and maintain customer records.
- Created **separate logins and dashboards** for customers and admin to ensure security and role-based access.

Productivity Dashboard – Frontend Web Application (React, LocalStorage, Framer Motion)

- Developed a React-based productivity dashboard for task and schedule management.
- Implemented date-based task filtering with an automated “missed tasks” detection system.
- Integrated persistent data storage using the browser LocalStorage API to retain user data.
- Designed an adaptive dark mode UI with smooth animations using Tailwind CSS and Framer Motion.

Personal Portfolio Website (React, Tailwind CSS, Vercel)

- Developed a fully responsive portfolio website showcasing projects and skills with a strong focus on UI/UX design.
- Created interactive animations and smooth transitions using Framer Motion to enhance user engagement.
- Built modular, reusable React components and applied Tailwind CSS for a clean, scalable interface.
- Deployed on Vercel, optimizing performance, accessibility, and intuitive navigation for seamless user experience.

Soft Skills

- Creative Thinking
- Time management
- Project Management
- Responsibility & Honesty
- Fast learning

Languages

- English
- Sinhala
